DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

EVENTS CONDUCTED 2022-23

VISION

To impart quality and responsive education in Electronics and Communication Engineering for the overall development of students to meet the global challenges.

Mission

M1: Adopt a transformative teaching-learning pedagogy to empower our students with domain knowledge and practical skills in resonance with technological developments.

M2: Impart multi-disciplinary knowledge, and train our students to develop the relevant professional competency skills.

M3: Create a cogent ambiance to comprehend the technical and management principles, and the efficacy of life-long learning.

Faculty Contributions

Mr. Raviraj Chougala has delivered lecture on " Importance of VLSI for the future", on 13th August 2022, at The Institution of Engineers (India), Belagavi. VLSI is the process of integrating or embedding many thousands of transistors on one silicon semiconductor microchip. Importance of VLSI in modern days is that it helps to create big memory arrays and are used in microcontroller and microprocessors. VLSI is important because it is very useful for compact design. It has small power consumption as compared to discrete components circuit. VLSI can be used i.e.for different functions in compact size.

— *Student Contributions*

AITM students team "Silva Minds" along with their mentor Mr. Gautam Kallimani, ECE department have participated in the Finals of Smart India Hackathon (SIH)-2022 at Kongu Engineering College ,Perundurai, on 25th August 2022, Chennai.
